## PROFILE

I am a passionate developer with a key specialization in back end and front end programming. My goal is to build outstanding software that will not only improve and bring substantive change to the locals but also internationally. I value simple content structure, clean design patterns and thoughtful interactions.

I'm always open to discussing business products or partnership opportunities as I incorporate my vast skills in building lucrative applications that are to the exact specifications and contentment of my clients.

## WORK EXPERIENCE

### Full stack Developer

*Longsight Enterprises / October 2021- now*

Longsight Enterprise is a digital company that offers a range of modern services and business solutions from software and web development, corporate advertisers and digital marketing services. Here I have implemented both front end and backend development like the motor showroom and Longsight web design. I also developed tele adverts used by companies like motorhub and The Alps Hotel for their advertisement.

### Project Manager

*Techkey Cybernetics August / 2020 - now*

Techkey Cybernetics is a digital company that focuses on the development of websites and software applications. At Techkey I have developed brand websites for companies like Jumla cuts, backend development of applications and API integrations. All of my projects can be viewed in my Portfolio Section of my website and that of Techkey Cybernetics.

### IT Assistant

*Mutuini High School / January 2018 - August 2018*

Worked here as an IT assistant for the IT department of the school. I was incharge of maintenance, repair and upgrade of the lab computers together with the printing accessories. I also tutored students in STEM subjects.
